The Jacques Delors Institute is the European think tank founded by **Jacques Delors** in 1996 (under the name Notre Europe), at the end of his presidency of the European Commission. Our aim is to produce analyses and proposals targeting European decision-makers and a wider audience, and to contribute to the debate on the European Union.

We publish numerous **papers** (Tribunes, Policy Papers, Studies & Reports, Syntheses), sounds and videos, organise and take part in **seminars and conferences** throughout Europe, and make appearances in the **European media** via our presidents, director and team.

Our work is inspired by the action and ideas of Jacques Delors and guided by the general principles set out in the **Charter** adopted by our Board of Directors. It is structured around **three main axes**: “European Union and citizens”—covering political, institutional and civic issues; “Competition, cooperation, solidarity”—dealing with economic, social and regional issues; “European external actions”—research with an international dimension. .

The president of the Jacques Delors Institute is **Enrico Letta**, Dean of the Paris School of International Affairs (PSIA) at Sciences Po and a former Prime Minister of Italy. He succeeded **António Vitorino**, **Tommaso Padoa-Schioppa**, **Pascal Lamy** and Jacques Delors. The director, **Yves Bertoncini**, leads **an international team** of around 15 members, who work in close coordination with the members of our Berlin office, the Jacques Delors Institut - Berlin, led by **Henrik Enderlein**.

The governing bodies of the Jacques Delors Institute comprise high-profile European figures from diverse backgrounds. Our **Board of Trustees** takes care of our moral and financial interests. Our **Board of Directors** is responsible for the management and direction of our works. Our **European Steering Committee** meets to debate issues of fundamental importance for the future of the EU.

All publications are available free of charge, in French and English, on our **website** and through the **social networks**. The Jacques Delors Institute is wholly independent of any political influence or economic interests.
